Q.4. a) The annual demand for a particular item is 15000 units, unit cost is Rs. 4/- Carrying cost on an average inventory is 30% and the ordering cost per order Rs. 50/-.

Find 1) EOQ

(3)

2) Total Inventory Cost.

(3)

3) If purchase manager has decided to place purchase order with minimum order quantity of 3000 units to get unit cost discount of 10 % per unit. State Purchase Manager is justified in his decision?

(4)

b) What is global Supply Chain? Discuss objectives of global supply chain.

(5)

OR

c) State merits and demerits of waterways and roadways as mode of transportation.

(8)

d) Classify and explain elements of customer service.

(7)

Q.5. a) Read the case and answer the following.

M/s Aaradhya Limited is situated near Delhi. The company supplies dashboard assembly as a 4PL supplier to Amit Udyog Ltd. Since last 5 years. There are number of components in the dashboard. Aaradhya Limited Purchases these individual components from various suppliers and assembles them at their works for onward supply to Amit Udyog Limited.

One of the major component namely “starter switch” is always the problem. Since Aaradhya Limited does not observe any systematic inventory control method in their purchasing activities, they just order the quantity as and when the demand arises. As this product is not available off the shelf, many times delays occur in arranging for assembled dashboard to Amit Udyog Limited. This in turn, result into financial loss to Aaradhya Limited due to penalties imposed by Amit Udyog Limited. As per the agreement, towards delays in supply of dashboard assembly.

Questions:

1. Define out sourcing. Explain the role of 4th party logistics in the above case.

(8)

2. How Aaradhya Limited can avoid financial penalties imposed by Amit Udyog Limited?

(7)

OR
